February 2021
Special Feature

ESM member, Wayne Ranney, sent in the following comments and photos regarding a Jan. 2021 article on the Great Alaska Earthquake:

"I was excited to see the old photos of Anchorage after the 1964 earthquake. In August, 2017, I was lecturing in Alaska on the geology of the earthquake and I reproduced one of the historic photos. Your subscribers may find the "then and now" photos interesting. I went to the exact spot where the old photo was taken and was able to line up the high rise building in the background."
